YUSOF B. PACIENTE

FRONTEND WEB DEVELOPER

Profile

I am a passionate and creative Frontend Web Developer with 2 years of experience in developing responsive and user-friendly websites through personal projects. With a strong knowledge of HTML, CSS, JavaScript, and modern front-end frameworks like React, I am dedicated to crafting clean, efficient, and visually appealing code. I am always eager to learn new technologies and excited to collaborate with designers and back-end developers to bring complex ideas to life and continue growing as a Front-End Developer.

Trainings

Web Fundamentals [view certificate]

Completed Village 88 intensive Training for Web Fundamentals Track (50 hours per week) and successfully passing the examination on July 16, 2022.

Personal Projects

Goodall [visit website]`

E-commerce website design that list all of goodal products on offer. Built using MERN stack, Tailwind Css for the styling and Redux Toolkit for state management.

Weather City [visit website]

Web application that helps you find the current weather in your city. A short react project to refresh myself on the best practices of api's when used with react.

Flavour Flow [visit website]

A website where user can enter any ingredient they have at home. The   website will generate a variety of foods you can make with these ingredients.
